

## What is Air.o?

Air.o Hypoallergenic Soft Flooring from Mohawk is a complete breakthrough in flooring, featuring an innovative unified construction. Its fibers are attached to a premium cushion backing, eliminating the need for a separate cushion.

## Features of Air.o

### HYPOALLERGENIC

From the surface all the way through to the attached premium cushion, Air.o won't absorb any moisture, **helping to prevent the growth or spread** of allergens such as **mold, mildew and dust mites**.

### EASY TO CLEAN

Because of its unique construction, **Air.o has better airflow**—releasing dust, dirt and pet dander more easily when vacuumed.

### VOC-FREE

Air.o has no VOCs or odor and is latex-free, ensuring there is **no “new carpet” smell** when installed.

### 100% RECYCLABLE

Air.o is better for our homes and our planet. Engineered with just **ONE** material, it's the only **100% recyclable** soft flooring available.

Hypoallergenic Soft Flooring

## PURE PEACE OF MIND

When you choose a soft flooring option that's hypoallergenic, easy to clean and VOC-free, you're choosing pure peace of mind. **You're choosing Air.o.**

Here's what families who were given Mohawk Air.o to install in their homes have to say:

“My son loves to sit on the floor and play, so I hoped to find a plush flooring. Air.o not only looks great, it's so comfortable!”

- Gina Michele

As a first-time homeowner, **Gina** never had new flooring installed and didn't know what to expect when re-doing her son Indigo's bedroom. Concerned about his allergies, **Gina** found Air.o to be the perfect alternative to traditional carpet.

“Hypoallergenic is important to me as we have a lot of allergies in our family. I love that its integrated cushion doesn't absorb moisture, so it dries even faster after spills.”

- Jess Oaks

**Jess** had no idea her daughter, Blake, would be equally ecstatic about their new Air.o installed in the living room. Since Blake is constantly on the floor having fun, **Jess** loves how soft Air.o is and was thrilled there was no “new floor smell” during installation.

Since **Julie** and her husband built their house, they dreamed of the day they could finish their basement and turn it into an official playroom. **Julie** used Air.o to complete the space, and it turned out perfect for her family!

“My kids spend a lot of time playing on the floor, so we needed soft and durable flooring. Air.o is easy to clean, making it a perfect fit for a busy family like mine!”

- Julie Renbarger
